## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Objections***

1. Claims 1-3, 10 and 54 are objected to because of the following informalities: In order to prevent a rejection based on an intended use of an element, the following changes should be undertaken by the Applicant: The phrase, "means for determining position" in Claims 1-3, 10 and 54 should read as "means determining a position". The phrase, "dose calculating means for calculating" in Claims 1-3, 10 and 54 should read as "dose calculating means calculating". The phrase, "display means for providing" in Claims 10 and 54 should read as "display means providing". Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 10, 11, 53 and 54 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claims 10, 11 and 54 recite the limitation "said earlier obtained patient's anatomical data" in lines 14-15, line 3, and lines 14-15 respectively. There is insufficient antecedent basis for this limitation in the claim.

5. Claim 53 recites the limitation "said reference point position data" in line 2. There is insufficient antecedent basis for this limitation in the claim.

***Response to Arguments***

6. Applicant's arguments, see Paper No. 16, filed November 19, 2003, with respect to claims 1, 5-8, 10, 12, 14, 16-46 and 50-52 have been fully considered and are persuasive. The rejection of Cheng et al has been withdrawn.

***Allowable Subject Matter***

7. Claims 4-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

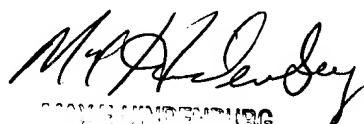

8. The following is a statement of reasons for the indication of allowable subject matter: Claims 12-52 are currently allowable since no prior art could be found teaching or suggesting a method or apparatus for brachytherapy comprising: determining the space-position of the deposited seed with reference to a space-fixed coordinate system, per claims 12 and 13; and determining a position of a seed within a patient body with reference to a space-fixed coordinate system, per claims 23, 32, 41 and 47. Claims 1-3, 10, 11, 53 and 54 will be allowable once the above objections and rejections are overcome.
